File 117L

26 June 1956

MEMORANDUM FOR: Colonel Terhune

This briefing is the result of a formal request by ATIC. RADC Intelligence Center received the request and asked our approval.

(1) The Briefing is to outline technical and system areas of both problems and advances.

(2) ATIC then prepares to deduce from our status the Soviet equivalent status.

(3) ATIC gave presentations to the WS 117L contractors during the engineering design studies under direction of General Watson, coordinated through RADC.
